

Galician chestnut honey

Raw honey associated with *Castanea sativa*

ORIGIN

Galicia, Spain. The producer describes protected high-mountain apiary areas.

PUBLISHED JAR SIZES

500 g and 800 g jars

SENSORY PROFILE DESCRIBED BY PRODUCER

Dark amber when liquid, often golden-brown when crystallized. Vegetal aroma with slightly acidic and bitter notes.

For importers and distributors

Honey is presented through DPP Global as the producer's direct B2B commercial channel. Request current availability, volume, destination, Incoterm, samples and a tailored quotation.

This is a commercial summary, not a batch-specific technical specification, certificate of analysis or export approval. Confirm the current lot, labels, certifications and destination requirements against producer documentation before an order.
