

Galician forest honey

Raw honey from oak-dominant mountain habitats

ORIGIN

Galicia, Spain. The producer describes protected high-mountain apiary areas.

PUBLISHED JAR SIZES

500 g and 800 g jars

SENSORY PROFILE DESCRIBED BY PRODUCER

Dark amber, dense and intense, with a less sweet taste and low tendency to crystallize.

For importers and distributors

Honey is presented through DPP Global as the producer's direct B2B commercial channel. Request current availability, volume, destination, Incoterm, samples and a tailored quotation.

This is a commercial summary, not a batch-specific technical specification, certificate of analysis or export approval. Confirm the current lot, labels, certifications and destination requirements against producer documentation before an order.
